About This Content

The Greek States Culture Pack adds a new playable Culture including three new playable Factions to Total War: ROME II; for use in Single or Multiplayer Campaign modes and Custom and Multiplayer Battles.

The Greek States Culture Pack adds diplomatic Athens, shrewd Epirus and formidable Sparta as playable factions. Each offers range of special tactics to achieve cultural and martial victories, and lethal elite units to crush foes in battle.

The Greek States share a number of common goals, philosophies and general diplomatic aims. However, they are defined by their fierce independence and between them demonstrate a huge variety in approach to civil and military challenges that often brings them into conflict with the wider world, and each other.

New Features:

New Playable Factions – Athens, Epirus and Sparta each offer a unique new way to experience the campaign, with their own rosters of powerful military units, distinct traits and play styles.

The Athenian pursuit of enlightenment grants them technological and cultural bonuses; Sparta's dominance over the Helots allows them to maintain a larger slave population; and Epirus enjoys bonuses to settlement exploitation stemming from their village-confederation origins.

New Cultural Traits – All Greek States benefit from a bonus in battle when defending their own or an allied territory, a bonus to wealth generated by their capitals and an increase to the rate of cultural conversion within their borders.

New Cultural Objectives – Greek States have their own new set of military, economic and cultural victory conditions, as well as sharing a unique set of bonus objectives drawn from Greek history. Additionally, each faction will have to contend with its unique events and dilemmas.

New Military Traditions – Each of the Greek States has a unique top-tier military tradition: Athenian fleets may be honoured as Children of the Aegaeon, improving the ramming ability of their ships whilst allowing them to secure more income when raiding; Spartan armies may be remembered as Peers of Leonidas, improving their melee defense capabilities and reducing their upkeep; the armies of Epirus may be feared as Hounds of Molossus, granting them greater charge bonuses whilst allowing them to keep public order problems in check.

New Units:

In addition to the intimidating unit rosters of each faction now playable for the first time, the Greek States Culture Pack introduces a variety of unique and especially elite and deadly forces.

Mercenary Veteran Hoplites – [available to all playable factions]

From glistening spear points to earth-shaking tread, a phalanx is a sight and sound to inspire dread. With these veteran hoplites, that dread is sold to the highest bidder.

Thureos Hoplites – [Available to Athens]

While the linen breastplates worn by these men may look flimsy, they are cool, practical and surprisingly tough. As with all hoplites, the men inside are also practical and tough warriors.

Thorax Hoplites – [Unique to Athens]

These heavy hoplites are marked by their bronze breastplate armour, a sign of wealth and status. They are armed with spears and hoplon shields, and use the phalanx formation to batter enemies into submission.

Agrianian Axemen – [Unique to Epirus and Macedon]

The Paeonian tribe of Agrianes are fierce fighters. As well as terrible killing tools, their axes are also climbing hooks for rough terrain. No sensible general would not use them in an assault.

Aspis Companion Cavalry – [Unique to Epirus and Macedon]

A king's companions in battle are his nobles and esteemed friends. It is an honour to be a companion, to ride forth with javelin and kopis to fight for your lord and master.

Heroes of Sparta – [Unique to Sparta]

Embodying the spirit of Thermopylae, the Heroes Of Sparta bear their spears and shields with fierce pride and unrivalled mastery.

Polybolos Repeating Scorpion – [Siege Deployable available to all Greek, Roman and Carthaginian factions]

Able to make short work of even the most heavily-armoured opponents, this repeating bolt thrower sacrifices the ordinary Scorpion's range in return for a rapid rate of fire.

Tortoise Armoured Battering Ram – [Siege Deployable available to all Greek, Roman and Carthaginian factions]

Combining devastating ramming power while affording protection to its crew, used well the Tortoise more than makes up for its lack of speed and manoeuvrability in open ground.

New Buildings:

The Monument of Leonidas – [Unique to Sparta]

A symbol of Sparta's overridingly martial culture, The Monument of Leonidas brings cost reductions to military recruitment, significantly increases the morale of land units in the province and a global morale boost to existing units.

Oracle of Dodona – [Unique to Epirus]

This sacred grove is the domain of the priests and priestesses of Epirus. The Oracle of Dodona increases provincial happiness,

wealth, and the global conversion of other factions to Hellenic culture.

Acropolis – [Unique to Athens]

A symbol of Athenian high culture and engineering excellence, The Acropolis also provides extra garrison forces to Athens, increases tax level, improves the city's abilities to withstand sieges, and increases Athenian agents' Authority actions.

Faction History:

Athens

Athens has long been famed for its cultural achievements, from buildings such as the Parthenon, to the plays and works of Aristophanes, Plato, Socrates, and Sophocles. In many ways, Greek culture is defined by Athens. Its military focus has long been its navy; however, continuing the traditions of the classical era, its citizens are also expected to contribute both infantry and cavalry to its armies.

Epirus

Epirus is a Greek kingdom formed of numerous small villages and towns, rather than the great cities of the south. An agriculture and fishing-based society, Epirus nevertheless maintains a balanced army on the Alexandrian model, consisting of cavalry, archers, peltasts, phalangites and war elephants. They also make extensive use of mercenaries from throughout the Greek-speaking world.

Sparta

With every aspect of their lives and society geared towards warfare, Sparta dominated the Greek world and continues to produce arguably the finest soldiers of the Hellenic period. The slaves and non-citizens of Sparta enable their citizens to pursue warrior perfection as soldiers and champions. Trained and hardened in battle, their warriors and leaders are the embodiment of military discipline and virtue.

Katie is a great game. While it's fairly short, and doesn't really have replayability, I don't think it needs it. The concept and theme are amazing, and the characters are very relatable. The music is also really good, and I quite like the art style. The lack of options such as sound and keybindings are just a minor inconvenience, and I think pros of the game outweigh its cons by a lot.. This game graphics good tho!. A pretty awesome and simple drifting game based around the Initial D anime. Sick music too!

One thing cool to add would be a time tracker of some sort to record lap time. I dunno why, but the "Team Meat"-commentary-track really reminded me of "Mystery Science Theater 3000 V Riftrax" and any other comedic-commentary-tracks (especially the folks from Channel Awesome).

I suppose that one good reason to throw in few dollars V euros?

I really don't have anything else add that was already mentioned in the description V sales-text; I still got enough laughs I paid for.. Definately a lot of fun but there is a big learning curve. Get used to screwing your swing up and being blasted by a drone. if anyone wants to see a vdeo review and some gameplay head here <https://www.youtube.com/watch?v=QubeD8KK3Nw>. [What I love about this season of the series is that we get to see our cute Angela when she is little. What I never expected from this season is that ANGELA IS JAILED! What a twist! LOL!](#)

[At least, it is really nice to see how Angela did not take jailing into a negative perception but in fact, getting inspiration from her time in jail. In another word, she honestly make everything and every single moments worth it.](#)

[I also extremely adore the new character named Chloe. Would be lovely to see Chloe have her own series regarding her photography lifestyle.. Great design, nice story, witty dialogues. But way waaaaay too short. Buy it on sale.. Video of gameplay: https://youtu.be/oqmvzWVWY8g](#)

[This game is a great concept for VR. You are legless, sitting on the ground from your waist up. You can climb, crawl, & fling yourself anywhere you want on the map, even up trees! There are powerup cards that rest on your forearm and you throw them to use them. This ranges from magic windwinds to rocket launchers on your shoulders. You have a regular laser gun at your hip to use as well. Hopefully more people pick up this game because I could only find one lobby with one person in it. I think bots is a must for this game, otherwise there won't be a big enough players right now.](#)

[Pros: Awesome concept](#)
[Movement is smooth and managable](#)
[Lots of powerup types](#)

[Cons: Everything is blurry/grainy at distance. Anything more than 4 feet in front of you.](#)
[This is multiplayer only, no bots. Without a playerbase this game will not last.](#)

This game changed my life. Samurai wars is a game where you fight another ninja? idk if it is a ninja or a samurai, i think its a ninja though, i have come across 1 bug but its pretty big on the moon stage attacks are broken but i would recommend this game cause its pretty cheap and you'll have some fun! :). <https://www.youtube.com/watch?v=6Xxa3TR7mXc>

[We would consider this game in the puzzle genre with an element of horror even though we have yet to get a decent jumpscare. We tried to include a little walkthrough for the first part of the game as we had some trouble finding our way around. Watch out for rampant boxes and pillows as you make your way through this spooky mansion owned by your dear uncle \(we're not really sure but we like the premise\). Enjoy ! 7 out of 10!](#)

[- Big Fams Gaming. nice game !. Save the Ninja Clan](#)

[Save the Ninja Clan is a unity based 2D side scrolling platformer similar to Super Meat Boy. You play a brave ninja who sets out to rescue his ninja pals and stop the evil white ninja.](#)

[You start your journey with a green suit equipped with double jump and a knife you can throw to kill enemies, and later can trade the green suit between a blue and black suit, which have the powers to sprint \(blue\), and puff into a cloud of smoke to evade deadly traps \(Similar to the rolling system from Guacamelee\).](#)

[Your knife starts as just a basic knife. If an enemy shoots at you and your knife connects with it, it destroys the knife, but you can throw them quickly and infinitely so throwing them non-stop is warranted. By collecting the 33 collectibles found in each stage \(1 per stage\), you can use those collectibles to unlock new knife upgrades, such as a knife that goes through bullets, rockets, etc. destroying them and continuing forward, or another knife that kills all enemies in one hit. There is one other upgrade that allows for a knife spin, but other than the cool ninja effect, it doesn't seem to do much else. Each upgrade requires 7 collectibles, so 21 total for all 3, meaning you don't need to collect all the collectibles in the game to get them.](#)

[There are 34 levels total in the game, 31 basic platforming levels and 3 boss levels. There are a few tricky levels, but all-in-all they are pretty basic when compared to some of the levels featured in Super Meat Boy. There are also nifty secret "glitch" areas in 31 of the levels, which when accessed bring up a command prompt with witty humor as if the developer were watching you break their game.](#)

[Save the Ninja clan features 30 achievements, all of which are relatively easy. I can honestly say the only two that were a bit troubling were the achievements for beating 5 and 10 levels without dying, as you need to play 10 straight levels, you cannot replay a level, and you cannot exit and go to another level. Still easily achievable with a bit of practice.](#)

[Overall, Save the Ninja Clan is a small game, but it's a game that for the price of \\$0.99, is still very much worth it. 34 levels, a bunch of secrets, a small amount of easy to find collectibles, and an simple achievement completion to be had. Definitely recommended.. This game is pretty fun, I love the soundtrack. It took me a second to see my objectives, but I figured it out. IT's definitely worth the price.](#)

[Here's a video of my first time playing so you can get an idea of the game: \[https://www.youtube.com/watch?v=rk_PdsoBcSw\]\(https://www.youtube.com/watch?v=rk_PdsoBcSw\). This is for all of you bondage enthusiasts out there!. Great game for a low price.](#)

[It is not sky force, but it has all what a shmup need. Much popcorn, powerups small and big bosses.](#)

[It makes really fun, the graphics a "retro" cool! I have some flickering and stutter with mouse, but with xbox controller it is really good controlable.](#)

[I like to have it in my shmup collection. Good Job!
_Unplayable, horrible, remove this game from steam.](#)

[\u00c8 ingiocabile, orribile, rimuovetelo da steam.](#)
